

Biltmore Coffee Roasters is an Asheville, NC, artisan micro roaster and bakery specializing in relationship coffee: “sustainable for people & the planet.” We source direct trade beans to ensure environmental, economic, and social sustainability, specializing in coffee grown in harmony with nature while providing family farmers a living wage and incentives to protect the environment. Each roast is slightly different, exhibiting the nuances of the roasting climate and the bean’s distinctive terroir. Freshness, deliciousness and stewardship set Biltmore Coffee Roasters beans above the crowd. Stop in and see us at 518 Hendersonville Rd. to enjoy our organic shade-grown coffees, homemade cookies and pastries, loose leaf teas, chai, smoothies and more!

At Dynamite Roasting Company, we believe the simple act of buying a cup of coffee can drive social change in the communities where our coffee is grown, and here at home. We’ve been 100% certified organic and fair trade since day one, but we strive to go beyond that. We’re committed to our customers, our growers, our environment and to each other. That means providing a fair and living wage to our farmers, putting back as much goodness as we take from the soil, and having the smallest footprint we can. Our mission is to track down the very best quality beans at a great price for our customers – in a way that benefits all. We proudly offer a variety of shade-grown coffee beans.

Green Sage Café cares deeply about the state of the planet and believes that we are all stewards of the place we live. From the start our mission could be defined as Food, People, Planet. We feel the people of Asheville care about what they eat and we want to provide them with nourishing and healthy food made from natural, organic and local ingredients. In addition, our business strives to be a leader in sustainable practices. We are proud of our restaurants' achievements in solar water-heating, green business certifications, composting, and committed relationships with local and organic farmers. Green Sage Café restaurants proudly serve shade-grown coffees.

Hickory Nut Gap Farm is a serene 90 acres nestled in Fairview just 20 minutes from Asheville, NC. Fourth generation farmer Jamie Ager and his wife Amy raise 100% grass-fed beef cattle, pastured pigs and pastured poultry. The farm is a gathering place for neighbors, visitors, and families — a place to visit the animals, play on the tunnel slides, order fresh meats from the deli, and get a firsthand view of a local food system and the animals raised. We proudly offer several shade-grown varieties of coffee for sale in our Farm Store.

## Tribal Grounds

Tribal Grounds Coffee is crafted from beans grown and harvested by indigenous people across the globe. We roast only the finest hand-picked, organic and fair-trade coffees, and our blends form a connection between indigenous people and their histories. We are located on Tribal Land known as The Qualla Boundary—the home of the Eastern Band of Cherokee. Our owner/operator is a member of the Eastern Band of Cherokee, and Tribal Grounds Coffee is her vehicle for connecting other indigenous people like herself. Blends include The Long Runner Dark Roast, New Moon French Roast, and Kuwahi Kawi Full-City Roast, available by mail order and served at numerous retailers and restaurants in Asheville and western NC.

Ingenious Coffee Roasters offers a full line of single origins, blends, and flavors, as a small batch coffee roasting company dedicated to sourcing recently harvested beans from around the world. We work to build and retain relationships with our direct trade and farmers, such as Sao Francisco Coffee Farm in the Alta Mogiana region of Brazil. All of our direct trades are relationships that have developed over the years that we have been in the industry. From the Sriwijaya Coffees in Sumatra and West Java to Coto Farms in Honduras, we continue to build relationships to benefit those communities and support their farming practices. Our goal is to help the owners, the farmers, and the family live a sustainable life so that they can appreciate the value of their crop. Find our coffee at [these businesses across NC](#).

Our goal is to explore the world of single-origin coffees by consciously sourcing and roasting the highest quality coffee beans, thereby promoting the coffee growers and the communities that they serve. Independent Roasters partners with people like Rosa Elia Marquez Calix, whose family has been in coffee for three generations. Rosa's farm, in Marcala, Honduras, is 100% organic and the altitude, combined with proper care and responsibility, allows her to produce a coffee with unique characteristics. All single-origin coffees are hand-selected to ensure the highest quality beans, then craft roasted on site in Hendersonville.
